Mohd Adeeb

A.I. Intern @InAmigos Foundation | Building @HERLYY - AI-powered women's health Platform
Delhi, India

Summary

I am a passionate Python programmer with a solid understanding of various programming paradigms and a knack for problem-solving. My experience in web development includes proficiency in HTML, CSS, Tailwind CSS, Flask, Bootstrap, and MySQL. I have successfully applied these skills in multiple projects, including a full-fledged blogging website and an ongoing project called SARVAGYA NIRAKAR COMMUNITY (SNC), where I have developed responsive and user-friendly web interfaces.

During my academic and personal projects, I have honed my ability to collaborate effectively within a team, think critically, and tackle complex challenges with innovative solutions. I am particularly drawn to Google's commitment to innovation and excellence, and I am excited about the opportunity to learn from and contribute to such a dynamic and forward-thinking environment.

Experience

InAmigos Foundation (IAF)
Artificial Intelligence Intern
September 2026 - Present (1 month)
Delhi, India

Herlyy
Co-Founder
March 2026 - Present (7 months)
Delhi, India

Bityug
Technical Head
October 2025 - Present (1 year)
Delhi, India

Leading the technical wing of the society, overseeing project development, workshops, and tech events.

CantiLever.in
Python Developer
July 2025 - August 2025 (2 months)
India

Selected for a 1-month remote internship at CantiLever, contributing to various Python programming projects. Responsible for designing, developing, and optimizing code, collaborating with team members, and delivering practical solutions to support operational initiatives. This hands-on experience enhances my programming skills, problem-solving abilities, and prepares me for future challenges.

SARVAGYA NIRAKAR COMMUNITY
Software Engineer Intern
July 2024 - August 2024 (2 months)
Delhi, India

Education
